Eastern Branch — 216 East 45th Street, New York 17, N. Y.
Western Branch — 1151 S. Broadway, Los Angeles 15, Calif.

IMPORTANT INSTRUCTIONS!

Bingham's "Samson" Rollers for Offset and Vulcanized Oil for Letterpress are made of the best materials. They are built to exacting standards for long wear and efficient ink distribution.

- ➔ **Set Rollers Uniformly and Accurately.** Some inks require closer setting than others, but it is always good practice to set rollers as lightly as conditions permit.
- ➔ **Check Setting Frequently.** Improperly set rollers cannot perform to their fullest efficiency. Friction speeds wear.
- ➔ **Keep Rollers Clean.** A roller cannot function efficiently if the surface pores are clogged with dried oils, solvents or gums. Never permit ink to dry on rollers.
- ➔ **Wash Solution for Vulcanized Oil Rollers**—equal parts of high-test gasoline and kerosene. Use clean rags and plenty of solvent, and dry immediately with a soft rag. Rub lightly to avoid scuffing.

DO NOT USE

Chlorinated Solvents, i.e., Carbon Tetrachloride, Ethylene Dichloride; Hydrocarbon Solvents, i.e., Benzol, Toluol, Xylol; Ketones, i.e., Acetone; Acetates, i.e., Ethyl Acetate, Methyl Acetate Hydrogenated Naphtha; Lye Water, etc.

- ➔ **Storing Rollers:** Store rollers in vertical position, away from heat, sunlight and dust, and free from contact with other surfaces. Avoid rough handling and bumping. Extra rollers should not be stored continuously for more than two months; they will last longer if used occasionally.
